Sophia ABOUDRAR  
Recruitment Manager  
Zenika Maroc  
Casablanca, Morocco

**1st June 2024**

Dear Sophia,

I am writing to express my strong interest in an internship opportunity at Zenika Maroc, as advertised. With a solid foundation in software development and a keen interest in expanding my knowledge in DevOps, I am eager to contribute to Zenika's innovative team and benefit from the expertise of its professionals.

During my recent internship at Eurogate Tangier, I developed an employee management and dictionary application, which honed my skills in Software development. Over the past year, I have deepened my proficiency in Java and the Spring ecosystem, while also gaining experience with Docker and other related technologies. I am currently focused on enhancing my skills in DevOps to align with industry advancements.

Zenika's commitment to leveraging a diverse set of modern technologies, such as Spring Boot, Java, Docker, Kubernetes, AWS, and Terraform, is particularly inspiring to me. Your involvement in providing training and certifications in technologies like Linux Foundation, Node.js, and JavaScript further underscores your dedication to technological excellence, a value that resonates with my own aspirations for continuous learning and improvement.

I am particularly impressed by Zenika's application of Spring Boot in projects like the Spring PetClinic application, which showcases the integration of Spring MVC and Spring JPA with Dockerized tests for efficient development and testing. The company's use of Java, Spring Boot, and Docker in both project development and training programs aligns perfectly with my technical background and career goals.

Thank you for considering my application. I look forward to discussing how my background and skills match the internship position at Zenika Maroc. I am available for an interview at your convenience and am excited about the chance to contribute to your team.

Sincerely,  
Haitam ELGHARRAS
